

Asite's BIM Journey

2002

Asite was a board member of the International Alliance for Interoperability (IAI), now known as buildingSMART.

2006

Asite launched its collaborative BIM platform (cBIM), the first collaborative platform for 3D models.

2012

Asite became committee members of buildingSMART USA.

2014

Participated in the buildingSMART Alliance Challenge for COBie and was also one of the first online collaboration programs to support COBie.

2019

Asite became patrons of the UK BIM Alliance and became members of the UK BIM Alliance Technology Group

2020

Was a busy year for Asite, achieving a lot in its BIM journey:

- Aysar Abou Kheir and Arushan Mahendrakumar—members of Asite's Digital Engineering team—became members of BSI's Associate Consultant Programme
- Aysar become a member of Construction Room buildingSMART UK & Ireland
- Arushan participates in the openCDE Challenges with buildingSMART International
- Asite became members of the Digital Twin Consortium

2021

Asite achieved the BSI Kitemark for BIM Compliant Software—one of the first CDEs to achieve this worldwide.
